Nicholson 31 Association

“The classic blue water cruiser”

The Association's Aims and Benefits

Key: ● *Our aims*

Benefits we aspire to deliver.

- *Keep owners in touch with one another*

Other members & owners (could be near you).

Connect with other members in your part of the world (UK and Ireland, USA, Europe, Australia(?)).

- *Bring as many owners into the fraternity as possible*

Fly the Class flag - let those you meet on your travels know that you belong to a select band. With only 120 Nic 31s ever built, currently there are around 50 members.

- *Provide a forum & source of information for owners*

The Forum - contribute and glean information from wide-ranging discussions (maybe your project has already been covered).

Technical Drawings (available to enable you to become expert in replacing old with new)

The Association's History - learn about our background.

Archive - capture your boat's history for future owners to read.

- *Provide a news bulletin for members*

Newsletters - announcing events for you to join; recounting skippers' "war" stories; sharing refinements to our boats etc.

- *Promote an annual meet for owners*

Join up with our Dutch counterparts for cruising in company (Europe).

Additional Aim

Get discounts from other Associations, such as the RYA and Cruising Association (UK).
